Interior Architecture Required Off-Campus Options

2025 - 2026

Our students' design and planning studies are enriched by frequent interaction with the world outside Seaton/Regnier Hall. Many participate in an education abroad experience and complete an internship. Other students choose to study urban issues at the Kansas City Design Center. All Interior Architecture students, after finishing their third-year, are required to choose two of the following (one must be semester-long experience in the spring of 4th year):

- APDesign Italian Studies Program or Education Abroad,
- Internship
- Kansas City Design Center (KCDC)

Please refer to your curriculum guide and academic advisor as you consider your future off-campus academic plans and what is required by your particular discipline. More information can be found on the APDesign website, under 'Student Success' > Education Abroad & Off-Campus Experiences:

Information Subject to Change

Why Education Abroad?

- **Academic challenge**—experience a range of topics, assignment types, and instruction styles as you engage in various coursework.
- **Professional growth**—visit notable locations and experience historic and modern design and planning precedents. An education abroad experience can be a desirable credential to future employers.
- **Personal enrichment**—develop independence, a greater sense of self, and increased awareness and appreciation for other cultures.
- **Global perspective**—broaden awareness and multicultural competency by living in another country.
- Have a once-in-a-lifetime experience as a University student.

Potential Challenges When Studying Abroad

- **The language of instruction may not be English**, but full proficiency of the local language is not necessary
- **The academic calendar**, including exact semester start and end dates, may differ from K-State.
- **Minimal interaction with professors** outside of class. University culture may be hierarchical and more formal than at K-State.
- **Homesickness** and **culture shock**

Note: K-State and APDesign have excellent relationships with our partner institutions, but we do not influence their policies or procedures. If you elect to study at a foreign university, you must be prepared to accept and manage potential challenges.
